Subject: Lubec-Campobello
Pin No. 006893.00
Project No. BH-STP-6893(00)X
Bid Amendment No. 6

Dear Sir/Ms.:

The Department has received the following Request for Information:

Question - Is it the intention of Special Provision 648, Independent Inspection and Testing Requirements: That an Inspector be present full time during fabrication or material or just available for final inspection of welds?

Response: It is not the intent that an inspector be present at the fabrication facility full time but the inspector will need to be there during fabrication not just for final inspection. The demand of the inspector will be dependant on the fabricator's production rate and process. Inspection must also be done prior to applying the coating.

Consider this information prior to submitting your bid on August 4, 2004.

Sincerely,

Scott Bickford
Contracts & Specifications Engineer
